Citrix Silver Solutions Provider

Citrix MetaFrame™ is recognized as the leading Windows Server-based computing software solution.

As a Silver Solutions Provider we are committed to offering sales and service for Server-based computing and Citrix products.

Silver Solution Providers have a trained and authorized Citrix Certified Administrator on staff to support the Citrix product line. We have the product and technical support capabilities to team with Citrix to provide Server-based computing solutions.

Together Silver Solution Providers and Citrix bring you comprehensive, seamlessly integrated Server-based computing solutions for your IT enterprise.

As a Citrix Silver Solution Provider we provide guidance in the following areas:

- ♦ Heterogeneous Computing Environments
- ♦ Client Devices
- ♦ Network Connections
- ♦ LAN Protocols
- ♦ Enterprise-Scale Management
- ♦ Systems Management Tools
- ♦ Application Management Tools
- ♦ User Management Tools
- ♦ Seamless Desktop Integration
- ♦ Independent Computing Architecture
- ♦ Remote Access

Engineering Your Success...

Network WAN/LAN

Authorized Reseller

Cisco Router Configuration

Cisco is the undisputed leader in WAN equipment.
Cascade Digital is experienced in routing data networks.

Cisco PIX Firewall

Create secure networks. Allow only authorized traffic.
Non-UNIX, Secure, Real-Time, Embedded System
Adaptive Security Algorithm - Stateful Information
DMZ - Secure Systems Available

Hardware Based VPN

Cisco based Virtual Private Networks.
Reliable and secure connections.
All data is encrypted via 3DES over public networks.

- ◆ Remote Access VPN - Telecommuters and Mobile Workers.
- ◆ Intranet VPN - Site to Site connections for Remote Offices.
- ◆ Extranet VPN - Extending Connectivity to Corporate Partners.

Bandwidth Optimization

Content services switches are Layer 5/7 aware.
Provide a robust front-end for Web server farms and cache clusters.
Directing Web traffic based on full visibility of URLs, host tags, and cookies.

Content engines save WAN traffic.
Advanced transparent caching services.

Identify network applications
Enforce policy-based bandwidth allocation
Generate reports on network behavior and application performance

Engineering Your Success...

Database Solutions

Microsoft®

Web Based Applications

Use your database applications via web browser.
Easy to use interface. No client software to install.
Sample Web Applications available.

Cascade Digital will:

- ♦ Increase productivity by upgrading your old DOS and Windows applications.
- ♦ Design and develop Custom Database and Intranet applications.
- ♦ Design and develop Web-based applications and e-commerce solutions.

Remote Database - MS or Linux

Cascade Digital is experienced in various platforms.

- ♦ Microsoft SQL
- ♦ Microsoft Access
- ♦ MySQL - Linux or Windows platforms available

Oracle to MS SQL Migration

Cascade Digital is experienced in various SQL migrations.
Oracle 7x/8x to MS SQL 7/2000 - Proven migration path.

Microsoft SQL Maintance

Cascade Digital can assume your Database Administrator needs.
Maintain SQL Data Backups and Interraty checks.
All work done by Microsoft Certified Professional in SQL.

Microsoft®
CERTIFIED
Professional

Custom Database Applications

Combine your company applications into a single database.
CDI has proven skills with SQL Server, Microsoft Access, and MySQL.

Create new solutions for:

- ♦ Product Inventory
- ♦ Existing Projects
- ♦ Track Unique Data
- ♦ Contact Management

Engineering Your Success...

Enterprise Applications

Microsoft®

Active Directory

Upgrade from the flat NT Domain Structure to Active Directory.
Enable new applications and grow your enterprise.
Enjoy the Reliability, Scalability and Manageability of Windows2000.

Exchange 2000 Upgrade

Active Directory Integration.
New Security and Robust Features.
Outlook Web Access - All New Interface.

VERITAS

Novell to Microsoft Migration

Move to new servers for todays applications.
Cascade Digital is confident in platform migration.
Retain user accounts via migration tools.

**TREND
MICRO**

Data Backup Systems

Protect company data with Veritas Backup Exec.
Hardware systems featuring DDS to Multi-Tape DLT Changers.
Proven reliability from Veritas.

CITRIX®

Disaster Recovery Plans

Cascade Digital will design your data recovery plan.
Provide both physical and electronic restore plan.
Cascade Digital can provide offsite storage services.

Microsoft®
CERTIFIED
Systems Engineer

Anti-Virus Solutions

Protect from daily virus attacks.
Trend is the world leader in Anti-Virus Systems.
Server, Workstation and Terminal Server Systems Available.
